

LYYC FIRST 2010 CRUISE

BELEWS CREEK POCKET CRUISE AND DAYSAIL

March 19-20-21

With the weather breaking (the snow is melting and the long range forecast is looking good) the trailerable cruisers are wanting to shake out some of the winter cob webs again. This is also a good time for the racers and day sailor's to check their bearings (wheel) and spend a day or two on the water.

YOU KNOW THE PLAN. The overnight cruisers will likely anchor out Friday night..... the day sailor's would rig and launch their boats Saturday morning before eleven o'clock and join them around the dam area for a sail. Saturday noon we could all raft up and tell some war stories and share some food and beverage. Afterwards some may want to sail off and explore the scenery at Belews Creek or tune-up with other LTYC sailors. Either way I am sure the day will go by very fast. Later that afternoon would be a good time for another raft up and more food and beverage. The day sailor's could take their boats out or leave them on the trailer and travel home and return Sunday for another day of sailing, exploring and rafting with the LTYC Cruisers.

<http://www.duke-energy.com/pdfs/belews.pdf>

Launch at Carolina Marina (B on belews pdf), (\$10.00) or Humphreys Ridge (A on belews pdf) (there will be a small cost). Pine Hall boat ramp is nice and free but not protected over night.

*In any case, if you even think you will be participating in this adventure.....
please contact me soon.*
